WHAT'S IN THE BOX

Cordless Window Cleaner
Spray Bottle
Window Cleaner Concentrate
Charging Adaptor

3 YEAR REPLACEMENT WARRANTY

LWC-1000
**KNOW YOUR PRODUCT**

**CORDLESS WINDOW CLEANER**

1. On/off Button
2. Charging Socket
3. Head Release Button
4. Dirty Water Reservoir
5. Reservoir Plug
6. Suction Head Release Button
7. Suction Head
8. Wiper Blades

**ACCESSORIES**

9. Microfiber Cloth
10. Spray Bottle
11. Spray Trigger
12. Window Cleaner Concentrate
13. Charging Adaptor
14. Charging Jack

**SETUP & PREPARATION**

1. **BATTERY**

   This charger is recommended for use with a residual current device with a rated residual current of 30mA or less.

   **Charging**

   1. Pull charging plug out of charging socket.

   2. Insert charging jack into charging socket.

   3. The red light will blink while charging. When fully charged, the red light will stay solid red.
**2. ASSEMBLY**

**Window Vac**
Slide suction head into window vac body until it clicks into place.

**Spray Bottle**
1. Pull the suction tube out of spray bottle.
2. Push suction tube into the base of spray bottle head.
3. Screw spray bottle into spray bottle head.
3. Slide the ends of the microfibre cloth onto the spray bottle head. Secure with velcro tabs.

**3. PROCEDURE**

1. Mix one part cleaning concentrate to 60 parts water in the spray bottle.

2. Point the spray bottle at the surface to be cleaned. Squeeze the spray trigger to cover the surface with cleaning solution.

3. Wipe over the area using the microfiber cloth on spray bottle to loosen dirt.
4. PROCEDURE CONT.

4. Place the wiper blades at the top of the surface then press the on/off button to turn the window vac on.

5. With an even, constant pressure, slowly slide the window vac down the surface.

5. CLEANING

1. Press the suction head release button to remove the suction head. Rinse under water and use a cloth to wipe over the blades.

2. Remove the microfibre cloth from the spray bottle and rinse. Alternatively, add to the washing machine. Do not use fabric softener.

3. Squeeze the head release buttons.

4. Pull the head off the window vac body.

5. Remove the dirty water reservoir. Unscrew and remove the black plug. Rinse the dirty water reservoir.

6. Leave all parts to dry then reassemble.

Caution: The base of the window vac contains electrical components. Do not clean under running water.

**MAINTENANCE**

1. When not in use, the window cleaner should be stored in a dry, frost free location, keep out of children’s reach.
2. Keep ventilation slots of the window cleaner clean at all times and prevent anything from entering.
3. If the housing of the window cleaner requires cleaning, do not use solvents. Use of a cloth only is recommended.
4. Blow out the ventilation slots with compressed air periodically.

Note: Ozito Industries will not be responsible for any damage or injuries caused by repair of the window cleaner by an unauthorised person or by mishandling.

**TROUBLESHOOTING**

**The battery has a short run time**
Ensure the battery is properly charged. It will take 4-5 charging cycles before the battery reaches optimum charge and run time.

**The window vac won’t turn on**
Check the charge check lights. If there is no signal or a slow blinking signal, charge the battery.

**The window vac is leaving streaks**
Clean the rubber wiper blades.

**The window vac is leaking**
Empty the dirty water reservoir.

**Sparking visible through the housing air vents**
A small amount of sparking may be visible through the housing vents. This is normal and does not indicate a problem.

**CARING FOR THE ENVIRONMENT**

Power tools that are no longer usable should not be disposed of with household waste but in an environmentally friendly way. Please recycle where facilities exist. Check with your local council authority for recycling advice.

Recycling packaging reduces the need for landfill and raw materials. Reuse of recycled materials decreases pollution in the environment. Please recycle packaging where facilities exist. Check with your local council authority for recycling advice.

**SPARE PARTS**

- Wiper Head: SPLWC1000-05A
- Dirty Water Reservoir: SPLWC1000-42A
- Spray Bottle: SPLWC1000-47A
- Microfibre Cloth: SPLWC1000-50
- Charging Adaptor: SPLWC1000-51

Spare parts can be ordered from the Special Orders Desk at your local Bunnings Warehouse.

BATTERY AND CHARGER SAFETY WARNINGS

This manual contains important safety and operating instructions for your battery charger.

1. Before using the charger read all instructions and cautionary markings on the charger, battery pack and the product using the battery pack.
2. This charger is not intended for any uses other than charging rechargeable batteries. Any other use may result in risk of fire, electric shock or electrocution.
3. Do not place any object on top of the charger or place the charger on a soft surface that may result in excessive internal heat. Place the charger in a position away from any heat source.
4. To reduce risk of damage to the electric plug and cord, pull by the plug rather than the cord when disconnecting the charger.
5. Make sure the cord is located so that it will not be stepped on, tripped over, or otherwise subjected to damage or stress.
6. An extension cord should not be used unless absolutely necessary. Use of an improper extension cord could result in the risk of fire, electric shock or electrocution.
7. Do not operate the charger if it has received a sharp blow, been dropped or otherwise damaged in any way. Have it checked by an electrician or power tool repairer.
8. Do not disassemble charger. Take it to an electrician or power tool repairer when service or repair is required. Incorrect reassembly may result in a risk of electric shock, electrocution or fire.
9. To reduce risk of electric shock, unplug the charger from the outlet before attempting any cleaning. Removing the battery pack will reduce this risk.
10. Never attempt to connect 2 chargers together.
11. Do NOT store or use the tool and battery pack in locations where the temperature may reach or exceed 40°C (such as inside sheds or metal buildings in summer).
12. The charger is designed to operate on standard household electrical power (240 volts). Do not attempt to use it on any other voltage!
13. The battery pack is not fully charged out of the carton. First read the safety instructions and then follow the charging notes and procedures.
14. The longest life and best performance can be obtained if the battery pack is charged when the air temperature is between 18-24°C. Do not charge the battery pack in an air temperature below 10°C or above 40°C. This is important and will prevent damage to the battery pack.

15. Do not incinerate the battery pack even if it is seriously damaged or is completely worn out. The battery can explode in a fire.
16. Never attempt to open the battery pack for any reason. If the plastic housing of the battery pack breaks or cracks, immediately discontinue use and do not recharge.
17. During charging, the battery must be placed in a well ventilated area.
IN ORDER TO MAKE A CLAIM UNDER THIS WARRANTY YOU MUST RETURN THE PRODUCT TO YOUR NEAREST BUNNINGS WAREHOUSE WITH YOUR BUNNINGS REGISTER RECEIPT. PRIOR TO RETURNING YOUR PRODUCT FOR WARRANTY PLEASE TELEPHONE OUR CUSTOMER SERVICE HELPLINE:

Australia 1800 069 486
New Zealand 0508 069 486

TO ENSURE A SPEEDY RESPONSE PLEASE HAVE THE MODEL NUMBER AND DATE OF PURCHASE AVAILABLE. A CUSTOMER SERVICE REPRESENTATIVE WILL TAKE YOUR CALL AND ANSWER ANY QUESTIONS YOU MAY HAVE RELATING TO THE WARRANTY POLICY OR PROCEDURE.

The benefits provided under this warranty are in addition to other rights and remedies which are available to you at law.

Our goods come with guarantees that cannot be excluded at law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

Generally you will be responsible for all costs associated with a claim under this warranty, however, where you have suffered any additional direct loss as a result of a defective product you may be able to claim such expenses by contacting our customer service helpline above.

3 YEAR REPLACEMENT WARRANTY

Your product is guaranteed for a period of 36 months from the original date of purchase and is intended for DIY (Do It Yourself) use only. If a product is defective it will be replaced in accordance with the terms of this warranty. Lithium ion batteries are covered by a 12 month warranty. Warranty excludes consumable parts, for example: cleaning concentrate, microfibre cloth, wiper blades, etc.

WARNING

The following actions will result in the warranty being void.

- If the tool has been operated on a supply voltage other than that specified on the tool.
- If the tool shows signs of damage or defects caused by or resulting from abuse, accidents or alterations.
- Failure to perform maintenance as set out within the instruction manual.
- If the tool is disassembled or tampered with in any way.
